Look Ahead America Overhauls Its January 6 Arrestee Database

Washington, DC – Look Ahead America (LAA) has released its updated January 6 Prisoner and Arrestee Database for public review. The database and analysis provide a graphical and dynamic breakdown (updated daily) of arrestees and prisoners by age, race, gender, state arrested, monthly frequency of arrests, sentencing, probation, and prisoner locations.

No other January 6 database comes close in terms of its accuracy and thoroughness; all information presented derives from open source records and private leads with source links provided for further review.

Matt Braynard, LAA’s Executive Director, made the following statement:

Look Ahead has pioneered the Justice for J6 movement and this substantial upgrade to our tracking system is another way we are helping to bring attention to the political persecution of our patriotic brothers and sisters.

Ian Camacho, LAA’s Director of Research, made the following statement:

Our analysis page and database make it crystal clear that over the 15 months absolutely no one has been charged with insurrection or treason related to the events of January 6, 2021. As more video evidence comes out, the public becomes more aware that the Capitol Police and various intelligence agencies conspired to entrap people protesting (as guaranteed by their First Amendment right), just as in the so-called Gretchen Whitmer kidnap plot.
