Look Ahead America Response to Pinal County's 2022 Primary Issues

Washington, DC – Following Tuesday's election disaster in Pinal County, Arizona, Look Ahead America's (LAA) Executive Director Matt Braynard made the following statement:

This failure of Pinal County's Elections Department is disappointing but not surprising. The department has proven their incompetence before when they refused to investigate or even respond to our submission of potentially invalid voters found to have permanently moved out of Arizona in 2020 according to the Postal Service's National Change of Address (NCOA) records.

It's time for the state government to implement LAA's Election Integrity Public Policy Objectives, specifically mandatory voter list hygiene and a fully funded division within the Attorney General's office to investigate election-related matters.

Find Look Ahead America's full report on data submitted to election departments in Arizona counties and their responses at <https://lookaheadamerica.org/azreport/>.

The six election integrity objectives LAA advocates are at <https://lookaheadamerica.org/integrity>.
