## **LAA Voter Integrity Project: 157,299 Illegal Ballots Cast in Wisconsin Presidential Election**

Washington DC – Today, Look Ahead America’s Executive Director Matt Braynard made the following announcement:

Today we are releasing our final Wisconsin Report demonstrating that the number of illegal ballots is – at a minimum – over 157,000. This is about eight times the 20,000 vote margin of victory in the presidential election.

This report is the product of the Voter Integrity Project (“VIP”), part of Look Ahead America’s Research Group. It builds on and supplements the initial analysis conducted by the VIP late last year and establishes beyond a reasonable doubt that the deserved winner of Wisconsin is unknowable.

We invite everyone to review the public version of the report at <https://www.lookaheadamerica.org/wisconsinreport>. We will also make the unredacted version with all of our supporting data available to journalists and academics who request access.

This report is the result of countless hours of work by our research volunteers under the leadership of our Research Director, Ian Camacho. For their help, I am truly grateful. I’m also grateful to the many donors to this project that funded the extraordinary data acquisition and processing costs.

To support LAA’s efforts, please contribute at <https://www.lookaheadamerica.org/donate> or volunteer at <https://www.lookaheadamerica.org/volunteer>.
